The rates of toll for crossing Pearl River Bridge, it will be seen by the notice of Mayor Barrows, have been very materially reduced—an act that will contribute much towards our local prosperity. Our friends on the other side of Pearl can now bring their poultry, butter, eggs, wood, etc., to Jackson, and not have the proceeds absorbed by toll rates.

The row between the soldiers and negroes at a ball of the latter, is undergoing investigation by our attentive and vigilant Mayor, aided by the Commandant of the Post. The serious consequences of this disturbance of the peace, and the public interest which it has awakened, will induce us to publish an impartial report of the investigation.

The pleasing task of love and duty in the annual decoration of soldiers' graves, was universally observed by the ladies of this city on Saturday last. The graves of the known and the unknown, were alike, by fair hands, bedecked with the choicest flowers of spring. 'Twas a touching tribute, a custom that will be observed by the women of the South through all coming time.

The Rt. Rev. Wm. M. GREEN, Bishop of this Diocese, preached to a very large congregation in the Senate Chamber, yesterday, and at the close of his very able and interesting sermon, administered the rite of confirmation to a class of nine persons.

The health of this able and venerable prelate seems very infirm, yet we most heartily join in the prayers of his immediate flock, that his days may be prolonged, and that his ministrations may be spared to them for many years to come.

The ceremonies incident to the erection of the Smith Monument, on Saturday last, were very appropriate and impressive. A very large gathering attested by their presence, and the deep interest manifested, the affectionate regard in which the memory of ROBERT A. SMITH is held in this community. At twelve o'clock, the members of the Fire Company, and the survivors of the Tenth Mississippi, formed a circle around the Monument, when prayer was offered by the Rev. John Hunter. After which, Colonel C. E. Hooker was introduced, and delivered an exceedingly beautiful and appropriate address. He was followed by Messrs. Dotson, Power and Frank Johnston. These addresses have been solicited for publication, and we may be able to present them in our next issue.

The Monument, which has been erected near the north end of the Cemetery, is of Scotch Granite—obelisk shape; is about twelve feet high, with a base of two feet ten inches square. It was manufactured in Scotland; bears a fine polish, and is of the most perfect and elegant proportions. It bears this inscription:

SPECIAL NOTICES.

A Miserable Sufferer.
 Is the victim of Fever and Ague. This tedious and enervating disease, is, unfortunately, too well known to need a description. It is strictly a malarious disease, caused by exhalations from the soil, especially from marshes, from swamps and newly cleared lands encumbered with decomposing vegetable matter. The chills are one of the most troublesome of maladies, as the patient, though he may not be confined to his bed, is incapable of action. The experience of years has demonstrated the fact that HOSTETTER'S STOMACH BITTERS, as a sure means of poisoning the system against all malarious poisons, breaking up the paroxysms and rapidly restoring the strength. Quinine, which has so long been the great remedy for chills, has been superseded by this powerful and harmless agent; while as a preventive it is unequalled, as its use will certainly exempt all who may live in unhealthy localities from the ravages of this disease. HOSTETTER'S STOMACH BITTERS is now among the most popular, and, at the same time, valuable specifics in the medical world. In recommending it to the public, we are fully conscious of doing them a great service, knowing, as we do, their many excellent qualities, and the speedy and rapid action which the disease is caused by irregularity of the digestive organs. As a tonic, it is both mild and agreeable to the taste, and stimulating in its action upon the system.

 DR. JOHN BULL: I send you \$20 for Cedron Bitters, please send what it will come to by the paying freight to Columbus, Miss. I have been troubled for several years with indigestion, have had to take pills every night for about fifteen years, and in February, 1864, I was attacked with general paralysis. I was confined to my room the balance of the year, and in fact, continued in a very weak and nervous condition until some two months since, when I was put under an operation, and your CEDRON BITTERS for treatment. I commenced improving right away, and am pretty well restored. Yours, truly,

ARKANSAS HEARD FROM.
TESTIMONY OF MEDICAL MEN.
 Stony Point, White Co., Ark., May 23rd 1866.
 Dr. John Bull—Dear Sir:—Last February, I was in Louisville purchasing drugs, and I got some of your Sarsaparilla and Cedron Bitters.

Dr. Gist, who has been in bad health, has tried them, and he also improved. My son-in-law, who was with me in the store, has been down with rheumatism for some time, commenced on Bitters and soon found his general health improved. Dr. Coffee, who has been in bad health for several years—stomach and liver affected—recovered very much by the use of your Bitters. Indeed the Cedron Bitters has given you great popularity in this settlement. I think I could sell a great quantity of your medicines this fall—especially of your Cedron Bitters and Sarsaparilla. Ship me via Memphis, care of Rickett & Neely.
 Respectfully,
 C. B. WALKER.

BULL'S WORM DESTROYER.
 To my United States and World-Wide Readers.

I have received many testimonials from professional and medical men, as my annuals and various publications have shown, all of which are genuine. The following letter from a highly educated and popular physician in the State of Georgia, is the most valuable communication I have ever received. Dr. Clement knows exactly what he speaks of, and his testimony deserves to be written in letters of gold. Hear what the Doctor says of BULL'S WORM DESTROYER.

VILLANOW, WALKER COUNTY, GA.,
 June 29, 1866.

DR. JOHN BULL—Dear Sir:—I have recently given your "Worm Destroyer" several trials, and find it wonderfully efficacious. It has not failed in a single instance to have the wished for effect. I am doing a pretty large country practice, and have daily use for some article of the kind. I am free to confess that I know of no remedy recommended by the ablest authors that is so certain and speedy in its effects. On the contrary they are uncertain in the extreme. My object in writing you is to find out upon what terms I may be able to get it upon easy terms. I shall use a great deal of it. I am aware that the use of such articles is contrary to the teachings and practice of a great many of the regular line of M.D.'s, but I see no just cause or good sense in discarding a remedy which we know to be efficient, simply because we may be ignorant of its mode of action. For my part, I shall make it a rule to use all and any means to alleviate suffering humanity which I may be able to command—not hesitating because some one more ingenious than myself may have learned its effects first, and secured the sole right to secure that knowledge. However, I am by no means an advocate or supporter of the teachings and practice of a great many of the country, that purport to cure all man of disease to which human flesh is heir. Please reply soon and inform me of your best terms. I am, sir, most respectfully,
 JULIUS P. CLEMENT, M.D.

A Good Reason For the Captain's Faith.
READ THE CAPTAIN'S LETTER AND THE LETTER FROM HIS MOTHER.

Benton Barrack's, Mo., April 30, 1866.
 DR. JOHN BULL—Dear Sir: Knowing the efficiency of your Sarsaparilla, and the healing and beneficial qualities it possesses, I send you the following statement of my case.

I was wounded about two years ago—was taken prisoner, and confined sixteen months. Being moved so often, my wounds have not healed yet. I have not sat up a moment since I was wounded. I am shot through the hips. My general health is impaired, and I need something to assist nature. I have more faith in your Sarsaparilla, than in any other medicine, for it is genuine. Please express me half a dozen bottles and oblige.
 CAPT. C. P. JOHNSON, St. Louis, Mo.

P. S. The following was written April 30, 1865, by Mrs. Jennie Johnson, Mother of Capt. Johnson.

DR. BULL—Dear Sir: My husband, Dr. C. S. Johnson, was a skillful surgeon and physician in Central New York, where he died leaving the above C. P. Johnson to my care. At thirteen years of age he had a chronic diarrhoea and scrofula, for which I gave him your Sarsaparilla. It cured him. I have for ten years recommended it to many in New York, Ohio and Iowa, for scrofula, fever, sores, and general debility. Perfect success has attended it. Zieff's cure effected in some cases of scrofula and fever sores were almost miraculous. I am very anxious for my son to again have recourse to your Sarsaparilla. He is fearful of getting a scrofula, and I, hence his writing to you for it. His wounds were terrible, but I believe he will recover.

Respectfully,
 JENNIE JOHNSON

SMITH'S TONIC SYRUP!

FOR THE CURE OF AGUE AND FEVER—OR—CHILLS AND FEVER
 The proprietor of this celebrated medicine justly claims for it superiority over all remedies ever offered to the public for the cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and South-western country to bear him testimony to the truth of the assertion, that in no case whatever will it fail to cure. If the directions are strictly followed a single dose has been sufficient for cure, and carried out. In a great many cases a single dose has been sufficient for cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more beneficial, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long standing cases. Usually, this medicine will not require a third medicine, after having taken three four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

MEDICAL.
HURLEY'S SARSAPARILLA.

OF all the remedies that have been discovered, during the present age for the "thousand ills that flesh is heir to," none equal this wonderful preparation. Only ten years have elapsed since the discoverer (who spent a decade in studying experiments, and perfecting it,) first introduced it to the public, and it is already recognized by the most eminent physicians in all parts of the country, to be the most surprising and effective remedy for certain diseases of which they have knowledge.

All other compounds or syrups of this root have failed to command the sanction of the faculty, because on being tested, they have been found to contain noxious ingredients, which neutralize the good effects of the Sarsaparilla, and sometimes injure the health of the patient. It is not so with Hurley's preparation.

This is the pure and genuine extract of the root, and will, on trial, be found to effect a certain and perfect cure of the following complaints and diseases:
Affections of the Bones, Habitual Costiveness, Debility, Diseases of the Kidneys, Dyspepsia, Erysipelas, Female Irregularities, Fistula, all Skin Diseases, Liver Complaint, Indigestion, Piles, Pulmonary Diseases, Syphilis, Scrofula, or King's Evil.

HURLEY'S AGUE TONIC.
PERFECTLY RELIABLE.

The only remedy for chills and fever or ague, and fever that is or can be depended upon is Hurley's Ague Tonic. It is a sure and certain cure for thousands cured by using it who had tried the usual remedies without benefit; but in no case has it failed.
